

# DUSTIN RYAN-ROEPSCH

## WORK EXPERIENCE

---

Software Engineer II	<b>Microsoft</b>	08/2020 - current
----------------------	------------------	-------------------

while at google i did some stuff.

Software Engineer	<b>Google</b>	08/2019 - 08/2022
-------------------	---------------	-------------------

Designed and implemented new features for GCP Private Catalogs's Angular based site. Stood up new Java microservice to act as the source of truth for pricing information in GCP Marketplace.

Internship	<b>Microsoft</b>	08/2020 - current
------------	------------------	-------------------

Worked on the Visual Studio team on the customer feedback tool that is embedded in the Visual Studio client (Electron and Riot.js). Implemented frontend and backend changes required to add the ability to "suggest a feature" in the feedback tool

Internship	<b>Google</b>	08/2019 - 08/2022
------------	---------------	-------------------

Backend web development on the Google Cloud Platform team, working on the Google Cloud Marketplace. Designed and implemented the backend microservice changes needed to add autocomplete and spell correction to the marketplace search page

Internship	<b>Microsoft</b>	Summer 2015
------------	------------------	-------------

Worked on the Outlook Desktop team in a large legacy codebase. Wrote modern c++11 code that interacted with legacy style c and c++. Balanced the adoption of RAII and standard smart pointers with the development needed to complete my internship feature.

Internship	<b>Rockwell Collins</b>	Summer 2015
------------	-------------------------	-------------

Designed and implemented a system to manage inventory, using Microsoft Access and Visual Basic

Internship	<b>Source Allies</b>	Summer 2015
------------	----------------------	-------------

Full stack web development with React and Java (Spring)
